

UNIVERSAL MEASURING UNITS

The CE Johanssons UD-device is a universal, precision measuring unit designed specifically for measuring

- External and internal diameters
- Large diameters
- Measuring roundness, two and three point measuring
- Height
- Wall thickness
- Squareness of diameter to end face

And combinations of these measurements. Add a high accuracy, an attractive price and the fact that the device has been a market leader for decades and you will get a product that you can rely on for many years. All in one device.

TECHNICAL SPECIFICATIONS

The UD-unit is available in two sizes. It is made of cast iron and all essential parts are protected against corrosion with durable red coloured powder coat finish.

TECHNICAL SPECIFICATION	UD-1	UD-2
CEJ ART.NO	8409-01011	8409-01012
Meas.range Outside \varnothing , mm	5 - 140	5 - 310
Meas.range Inside \varnothing , mm	14 - 165	14 - 340
Measuring table \varnothing , mm	165	340
Length, mm	180	320
Width, mm	182	360
Height, mm	100	125

BASIC ACCESSORIES

The basic accessories below are recommended for use with the UD-unit. The smallest internal diameter to be checked with this set is 31 mm.

CEJ ART.NO	DESCRIPTION
8409-01030	2 pcs Stud 8462-00041
	1 pce Stud 8462-00043
	3 pcs Meas. Disc 8409-01060
	3 pcs Spacer 8409-01110
	3 pcs Spacer 8409-01111
	3 pcs Spacer 8409-01112
	3 pcs Spacer 8409-01113
	1 pce Vee nut 8409-01130
	3 pcs Nut M6M6 8409-01132
	1 pce Adapter 8409-01050

LENGTH INDICATORS

The UD-measuring unit can be used with either dial indicators, Mikrokators or electronic sensors depending on the required accuracy.

CE Johansson has a wide range of different length indicators.
